

**Summary of the 7th Edition of The Massachusetts Basic Building Code
780 CMR 120.G, Appendix G:
Flood Resistant Construction in Coastal Dunes and
Flood Hazard Zones**

Effective January 1, 2008

Guest Speaker

Lealdon Langley

The MassDEP Circuit Rider Program is pleased to present a free educational workshops for Conservation Commission members, staff, Building Inspectors, and other municipal officials.

This workshop reviews the recent revisions to Appendix G of the Basic Building Code that coordinates decisions issued by Building Inspectors with the Orders of Conditions issued under the Wetlands Protection Act. The changes assist natural storm damage prevention and flood control and more closely aligns the building code with National Flood Insurance Program.
